Who should attend?

Remodelers, architects, and other professionals involved in the design and/or renovation of existing homes.

Featured speaker: Carl Seville

Carl Seville, Seville Consulting, is a Green builder, educator, and consultant on sustainability to the residential construction industry. He founded and served as Vice President of SawHorse, Inc., an Atlanta-based design/build firm, for 25 years. Under Seville's direction, SawHorse renovated the pilot homes for EarthCraft House Renovation, a voluntary Green building program of the Greater Atlanta Home Builder Association and SouthFace Energy Institute.

Also featured: Information and a Sneak Peek on the emerging Minnesota Green Remodeling Guidelines with **Michael Anschel**, Otogawa-Anschel Design/Build.
